## Subject index to Volume 37

### Acromegaly

- GH secretion and treatment; influence of age and sex 181
- and GH secreting pituitary carcinoma (Case of the Month) 189, 194
- gastritis and octreotide 227
- hypothalamic or pituitary origin of pulsatile GH in 233
- GHBP in, effect of octreotide 373

### ACTH syndrome

- cortisol and 11 $\beta$ -OHSD (Commentary) 481, 483

### cAMP

- gonadotrophin-stimulated growth and granulosa cell differentiation 51

### Androgen

- modulation not coupled to PRL pulsatile release in men 65

### Anorexia nervosa

- effects of opioid blockade and GnRH on LH in 520

### Blood group P<sub>i</sub>

- not associated with thyroidal ophthalmopathy 423

### Body composition

- effect of GH on in GH deficient adults 79
- effect of testosterone on in boys 207
- in post-menopausal women 426
- measures of in GH replacement 453

### Bone

- density in women with multinodular goitre 35
- pyridinium cross-link excretion in HRT and menopause 45
- effects of GH on in GH deficient adults 79
- osteoporosis treated with hPTH and oestrogen 282
- post-pregnancy osteoporosis with hypercalcaemia (Case report and review) 298
- metabolism, effect of nafarelin and norethisterone 354
- oncogenous osteomalacia and malignancy (Case of the Month) 379, (Commentary) 382
- mass in post-menopausal women 426
- density and metabolism not affected by finasteride 432

### Cabergoline

- suppression of PRL 534

### Carbimazole

- and erythrocyte metabolism, NMR studies 319

### Carbohydrate

- effects of GH on in GH deficient adults 79

### Cardiac conduction

- with hypercalcaemia in primary hyperparathyroidism 29

### Children

- LH response to clomiphene in precocious puberty 73

### GHBP and IGF-I levels in puberty 175

- girls with tall stature, oestrogen therapy (Commentary) 199
- high SHBG in premature thelarche 203
- effect of testosterone on growth, body composition and energy in boys 207
- effect of GH on GHBP in idiopathic short stature 249

### Clomiphene

- effect on LH in central precocious puberty 73

### Computer-assisted perimetry

- effectiveness in follow-up of pituitary microadenoma 157

### Coronary heart disease

- risk in PCOS (Commentary) 117, 119

### Cortisol

- and 11 $\beta$ -OHSD in ectopic ACTH syndrome (Commentary) 481, 483

### Cushing's disease/syndrome

- pituitary histology in 254
- mineralocorticoid effector mechanism, Na<sup>+</sup>-H<sup>+</sup> exchanger, sensitized in lymphocytes in 260
- and pheochromocytoma (Case of the Month) 460

### 1,25-Dihydroxyvitamin D

- in acquired vitamin D deficiency 17

### Down's syndrome

- and thyroid (Review) 471

### Empty sella

- and endocrine and neurological disturbances 529

### Endurance training

- and T3 metabolism 325

### Erythrocytes

- cellular metabolism and carbimazole, NMR study 319

### Fertility

- and PCOS 127

### Fibroblasts

- HLA-DR antigen expression induced by IFN- $\gamma$ , glucocorticoid regulation 59

### Finasteride

- does not affect bone density and metabolism 432

### Gastritis

- and octreotide in acromegaly 227

### Gastrointestinal surgery

- rhIGF-I after 542

### Genetics

- PCR in prenatal diagnosis of GH gene deletion 89
- HLA class II gene polymorphism and Hashimoto's thyroiditis 141
- molecular, hypogonadism and LH (Commentary) 201

- mutations in androgen receptor gene in partial androgen insensitivity 214
- of X-linked hypophosphataemic rickets 338
- GH**
  - effect on GH deficient adults 79
  - use in adults (Commentary) 111
  - immunoradiometric assay and ELISA 169
  - secretion in acromegaly and treatment: effect of age and sex 181
  - secreting pituitary carcinoma (Case of the Month) 189, (Commentary) 194
  - pulsatile in acromegaly; hypothalamic or pituitary origin 233
  - and GH mRNA following octreotide for GH-secreting pituitary adenoma 240
  - effect on GHBP in idiopathic short stature 249
  - rise induced by glucose enhanced by pyridostigmine 360
  - deficiency syndrome in adults (Review) 387
  - replacement, measures of body composition in 453
- GH gene deletions**
  - PCR in prenatal diagnosis 89
- GHBP**
  - and IGF-I levels in puberty 175
  - effect of GH on in idiopathic short stature 249
  - in acromegaly, effect of octreotide 373
- Glia-derived tumours**
  - diagnosis and treatment 1
- Glucocorticoids**
  - regulation of IFN- $\gamma$ -induced HLA-DR antigen expression in fibroblasts 59
- GnRH**
  - and opioid blockade, effect on LH in anorexia nervosa 520
- GnRH agonist**
  - and oestrogen secreting Leydig cell tumour 221
- Goitre**
  - in women, and bone density 35
  - TSH and SHBG levels in multinodular non-toxic after radioiodine 335
- Gonadotrophin**
  - stimulated growth, granulosa cell differentiation and cAMP 51
- Granulosa cell**
  - differentiation, gonadotrophin-stimulated growth and cAMP 51
  - maturity and immunoreactive inhibin after ovarian stimulation 552
- Graves' disease**
  - thyroid cells in stimulate allogeneic T cells with phorbol 274
  - antithyroid drugs in (Commentary) 317
  - erythrocytes, NMR studies of carbimazole on metabolism 319
  - atypical (Case of the Month) 382
- Growth**
  - gonadotrophin-stimulated, granulosa cell differentiation and cAMP 51
  - oestrogen for girls with tall stature 199
  - effect of testosterone on in boys 207
  - GH effect on GHBP in idiopathic short stature 249
- Hashimoto's thyroiditis**
  - and HLA class II gene polymorphism 141
  - thyroid cells in stimulate allogeneic T cells with phorbol 274
- hCG**
  - and bioactivity of Pergonal 558
- HLA-DR antigen**
  - expression in fibroblasts induced by IFN- $\gamma$ , glucocorticoid regulation 59
- Homeostasis**
  - effect of GH on in GH deficient adults 79
- Hormone replacement therapy**
  - menopause and excretion of pyridinium cross-links from bone 45
- Hypercalcaemia**
  - due to primary hyperparathyroidism, cardiac conduction in 29
  - of malignancy, PTHrP in 290
  - and post-pregnancy osteoporosis (Case report and review) 298
- Hyperemesis gravidarum**
  - thyroid tests in 331
- Hyperprolactinaemia**
  - characterization of PRL in 365
- Hypoglycaemia**
  - spontaneous, diagnosis (Review) 309
- Hypogonadism**
  - molecular genetics and LH (Commentary) 201
- Hypotension**
  - caused by pheochromocytoma (Case of the Month) 304
- IFN- $\gamma$** 
  - induced HLA-DR antigen expression in fibroblasts, regulated by glucocorticoids 59
- IGF-I**
  - recombinant human, therapeutic potential (Commentary) 11
  - and GHBP levels in puberty 175
  - recombinant human, after gastrointestinal surgery 542
- sIL-2R**
  - modulation by thyroid in thyroid disease 415
- IL-6**
  - in pituitary adenomas: immunocytochemistry 163

- Immune surveillance
  - thyroglobulin antibody parameter for 266
- Immunoglobulins
  - thyroid-stimulating, measurement of 493
- Inhibin
  - immunoreactive during ovarian stimulation, and granulosa cell maturity 552
- Insulin
  - secretion, sensitivity and hepatic extraction in pHPT before and after surgery 147
- Iodine
  - radioactive, in multinodular non-toxic goitre, TSH and SHBG levels after 335
- Kearns-Sayre syndrome
  - endocrine dysfunction (Case report and review) 97
- Lactation
  - PTHrP (Commentary) 402, 405
- Leydig cell tumour
  - oestrogen secreting, and GnRH agonist 221
- LH
  - not coupled to PRL pulsatile release in men 65
  - response to clomiphene in central precocious puberty 73
  - hypogonadism and molecular genetics (Commentary) 201
  - immunoreactive and bioactive estimates in cycle disturbances 445
  - in anorexia nervosa, effects of opioid blockade and GnRH on 520
- Lipids
  - effect of GH on in GH deficient adults 79
  - and abnormal thyroid function 411
  - fractions, ovarian steroids and age 437
- Men
  - pulsatile PRL in 65
  - hormonal management of prostate cancer (Current therapy) 477
- MEN1
  - (Case of the Month) 187
- Meningiomas
  - diagnosis and treatment 1
- Morphine
  - and naloxone, effect on OCT in labour 349
- Nafarelin
  - and norethisterone, effect on bone metabolism 354
- Naloxone
  - and morphine, effect on OCT in labour 349
- Nelson's syndrome
  - (Letter) 385
- Norethisterone
  - and nafarelin, effect on bone metabolism 354
- Octreotide
  - in acromegaly, and gastritis 227
  - and GH and GH mRNA levels in GH-secreting pituitary adenoma 240
  - effect on GHBP in acromegaly 373
- Oestrogen
  - for girls with tall stature (Commentary) 199
  - and hPTH in osteoporosis 282
- 11 $\beta$ -OHSD
  - cortisol and ectopic ACTH syndrome (Commentary) 481, 483
- Ophthalmopathy
  - thyroidal, not associated with blood group P<sub>1</sub> 423
- Opioid blockade
  - and GnRH, effects on LH in anorexia nervosa 520
- Osteomalacia
  - oncogenous and malignancy (Case of the Month) 379, (Commentary) 382
- Osteoporosis
  - treated with hPTH and oestrogen 282
  - post-pregnancy, and hypercalcaemia (Case report and review) 298
- Oxytocin
  - effect of morphine and naloxone on in labour 349
- Parathyroid
  - response to blood Ca lowering in PHPT 344
- Partial androgen insensitivity syndrome
  - point mutations in androgen receptor gene in 214
- PCOS
  - and risk of coronary heart disease (Commentary) 117, 119
  - and fertility 127
- Pergonal
  - bioactivity, and hCG 558
- Phaeochromocytoma
  - as cause of hypotension (Case of the Month) 304
  - and Cushing's disease (Case of the Month) 460
- Phorbol
  - pretreated allogeneic T cells stimulated by thyroid cells in Graves' disease and Hashimoto's thyroiditis 274
- Pituitary
  - histology in Cushing's disease 254
- Pituitary adenomas
  - immunocytochemistry of IL-6 in 163
  - GH-secreting, octreotide, and GH and GH mRNA levels 240
- Pituitary carcinoma
  - GH secreting (Case of the Month) 189, (Commentary) 194

- Pituitary microadenoma
  - effectiveness of computer-assisted perimetry in follow-up 157
- Polymerase chain reaction
  - in prenatal diagnosis of GH gene deletions 89
- Pregnancy
  - T3 determination in 41
  - PCR in prenatal diagnosis of GH gene deletions 89
  - effect of morphine and naloxone on OCT in labour 349
- Premature thelarche
  - SHBG in 203
- Primary brain tumours
  - endocrine aspects of diagnosis and treatment (Review) 1
- Primary hyperparathyroidism
  - and hypercalcaemia, cardiac conduction in 29
  - insulin secretion, sensitivity and hepatic extraction before and after surgery 147
  - parathyroid response to blood Ca lowering in 344
  - acute, non-autonomy of PTH secretion in (Case report) 565
- Primary hypothyroidism
  - IgG subclass distribution of TSH receptor blocking antibodies in 135
  - circadian pulsatile TSH in 504
- PRL
  - pulsatile release in men 65
  - characterization in hyperprolactinaemia 365
  - suppression by cabergoline 534
- Prostate cancer
  - hormonal management (Current therapy) 477
- Protein
  - effects of GH on in GH deficient adults 79
- PTH
  - and oestrogen in osteoporosis 282
  - circadian rhythm and pulsatility of 511
  - non-autonomous in acute primary hyperparathyroidism (Case report) 565
- PTHrP
  - in hypercalcaemia of malignancy 290
  - in lactation (Commentary) 402, 405
- Puberty
  - LH response to clomiphene in central precocious 73
  - GHBP and IGF-I levels in 175
- Pyridinium cross-links
  - from bone in menopause on HRT, excretion of 45
- Pyridostigmine
  - enhances glucose-induced GH rise 360
- Rickets
  - genetics of X-linked hypophosphataemic 338
- SHBG
  - in premature thelarche 203
  - and TSH after radioiodine in multinodular non-toxic goitre 335
- Somatostatin receptor imaging
  - in differential diagnosis of brain tumours 1
- Steroids
  - ovarian, lipid fractions and age 437
  - for thyroiditis; thyroid abscess complication (Case of the Month) 570
- T3
  - determination in pregnancy 41
  - metabolism and endurance training 325
- T cells
  - allogeneic, with phorbol, stimulated by thyroid cells in Graves' disease and Hashimoto's thyroiditis 274
- Testosterone
  - effect on growth, body composition, strength and energy in boys 207
- Thionamide antithyroid drugs
  - in Graves' disease (Commentary) 317
- Thyroglobulin antibody
  - for immune surveillance and prediction of post-partum thyroid dysfunction 266
- Thyroid
  - dysfunction, thyroglobulin antibody parameter for 266
  - tests in hyperemesis gravidarum 331
  - nodule (Current therapy) 398
  - abnormal function and lipid circulation 411
  - modulation of sIL-2R in thyroid disease 415
  - associated ophthalmopathy not associated with blood group P<sub>1</sub> 423
  - painful, atypical Graves' disease (Case of the Month) 382
  - and Down's syndrome (Review) 471
  - abscess and thyroiditis: consequence of steroid therapy? (Case of the Month) 570
- L-Thyroxine
  - morbidity in normal and suppressed TSH 500
- TSH
  - and SHBG after radioiodine in multinodular non-toxic goitre 335
  - circadian pulsatile in primary hypothyroidism 504
- TSH-RBAbs
  - IgG subclasses in primary hypothyroidism 135
- Vitamin D deficiency
  - 1,25-dihydroxyvitamin D in acquired 17
- Women
  - with multinodular goitre, bone density in 35

Women (*contd*)

- T3 determination in pregnancy 41
- HRT, menopause and pyridinium cross-link excretion from bone 45
- PCR in prenatal diagnosis of GH gene deletions 89
- with PCOS and risk for coronary heart disease (Commentary) 117, 119
- PCOS and fertility 127
- thyroglobulin antibody for immune surveillance prediction of post-partum thyroid dysfunction 266
- post-pregnancy osteoporosis with hypercalcaemia (Case report and review) 298

- effect of morphine and naloxone on OCT in labour 349
- effect of nafarelin and norethisterone on bone metabolism 354
- PTHrP in lactation (Commentary) 402, 405
- post-menopausal, body composition and bone mass 426
- ovarian steroids, lipid fractions and age in 437
- LH immunoreactive and bioactive estimates in cycle disturbances 445
- immunoreactive inhibin during ovarian stimulation, and granulosa cell maturity 552
